CERTIFICATION

It is hereby certified that Efstathios Kim. Servos, Mechanical Engineer, public works contractor, was the concessionaire of the project: "Mechanical works for the modification of the F.C.C. Unit". The final cost of the project amounted to 72,117,000 drachmas.

The project was implemented in 35 days, within the contractual deadlines, during the SHUT DOWN of the Units in May of 1995.

The tasks were executed in accordance with the technical specifications and requirements of the study (welding radiographic inspections, annealing for the P5 material, etc.) and included:

- Replacement of the section RISER, with diameter Φ 1500 mm, plate thickness of 13 mm, material A 516 GR 70.
- Replacement of EXPANSION JOINTS, with diameter Φ 800 mm up to Φ 1700 mm, plate thickness of 12-25 mm, material 304 H.
- Various maintenance works for the unit.

During the execution of the project, the aforementioned Engineer demonstrated a satisfactory level of professional training, diligence, and impeccable manners towards the staff of Hellenic Refineries S.A.

This is issued upon the request of Efstathios Kim. Servos as a work experience attestation for similar projects.
