CERTIFICATE

We hereby certify that the company ET.M.ER. S.A. has completed the project for the expansion of our fuel facilities in Aspropyrgos (former BP Hellas S.A.).

Project contract: 31/08/2007

Final cost: 4,191,498 Euro

Project duration: 12 months

The project included the following tasks:

1. **Construction works:** Complete construction of two new fuel tanks with side walls of reinforced concrete, construction of the foundation of four tanks, space layout, construction of electrical channels.

2. **Fuel tanks:** Complete construction of four (4) new metal fuel tanks, in accordance with API 650.

Tanks dimensions:

TK-16, 17, 19 Diameter D=34 m Height H=11 m

TK-18 Diameter D=24 m Height H=11 m

3. Mechanical works

- Complete construction of two new fuel pumping stations
- Construction of all the fuel piping that connects the new tanks-pumping stations with the filling stations, receival stations and old facilities.
- Construction of the expansion's fire protection networks.
- Construction of all the necessary Pipe-Racks for pipe transit.
- Sandblasting and painting of piping networks and metal structures.

4. **Electrical and instruments works:** Complete electrical installation of power and instruments networks, lighting, and connection of the old with the new facilities.

All the project's key materials were provided by BP Hellas to the Contractor, except from the materials required for construction, metal structures, electrical works, instruments (only pipes and cable grates) and painting.

The cost of the aforementioned tasks is allocated as follows:

1. Civil	1,487,457€
2. Construction of four tanks	1,818,000€
3. Mechanical works	538,041€
4. Electrical, automation and instruments-related works	348,000€
total	4,191,498€

This certification is provided for the renewal and upgrade of ET.M.ER. S.A.'s contractor certificate.
